NSEP Style 505XE Scrapie Tags

National Scrapie Eradication Program

**Metal ear tags are a one-piece, self-piercing and locking design that provides a high retention rate compared to other types of tags.
Hasco's Style 505XE is tamper resistant and is quick and easy to apply with applicator.**

- All orders are paid for by the government and must be ordered through your state agency •
- Your flock ID number is issued by the USDA and contains your state's abbreviation followed by at least three characters •
 - Your assigned serial number contains your state's abbreviation, two letters, and at least four digits •
- All numbers must stay in consecutive order continuing from last order – no skipping of sequences allowed •

PREMISE

- For use with animals born or used for breeding on purchaser's farm
- Includes the USDA shield, your unique consecutive number, and your flock ID number
- Available in white only

NON-PREMISE

- For use by dealers, markets, auctions, and others who do not own breeding flocks/herds
- Includes your assigned unique consecutive serial number, your state abbreviation, and the USDA shield
- Available in white only

MEAT

- For use with animals that will be used in meat production for slaughtering
- Includes your assigned unique consecutive serial number, "MEAT" stamping, and the USDA shield
- Available in blue only

HIGH RISK OR EXPOSED

- For use with animals that are at high risk or exposed animals
- Includes your assigned unique consecutive serial number, "EX" (exposed) or "HR" (high risk) stamping, and the USDA shield
- Available in yellow only

EXPOSED

- For use with animals that have tested positive for scrapie
- Includes your assigned unique consecutive serial number, "SCR" stamping, and the USDA shield
- Available in red only
